Submit the following for Friday the 1st day of Oct. 1926.

I have been unable to get any line here on case as it appears from all angles I have looked to regarding hearing anything; Can say did not hear the case mentioned by any one, and during time hanging around the Court House District and Police Headquarters did not see any signs of persons whom I know by sight appearing; it seems to me the issue here is dead not one person or persons refer to same.

Have watched very close for something which would at least give me a trace of what was doing, and think it useless to hold this place down without the heads come here and have examinations held otherwise time is wasted here, will be glad to leave here Saturday, as my showing is so poor and discouraging to me.
